

8th International Conference on Environmental Catalysis
Asheville, NC • August 24-27

Call for Papers
8th International Conference on Environmental Catalysis

Abstract deadline: January 31, 2014

On behalf of the International Advisory Board and the local organizing committee, we wish to announce that abstract submissions are now open for the 8th International Conference on Environmental Catalysis. The conference will be held August 24-27, 2014 at the historic Grove Park Inn Spa and Resort in Asheville, North Carolina, USA.

The scientific program will be organized around the following main topics:

1. Sustainable and clean energy production
2. Emission control
3. Indoor air cleaning
4. Water treatment
5. Green chemistry

Each abstract should specify one of these topical areas as well as a preference for oral or poster presentation. We anticipate that the schedule will permit a total of 150 oral presentations in 3 parallel sessions and 300 poster presentations in 2 poster sessions. A committee will review the abstracts and assign each accepted submission as either oral or poster.

Instructions for abstract submissions may be found at <http://www.icec2014.us/abstracts.php>. Submissions will be accepted until January 31, 2014.

Please visit the conference Website at <http://www.icec2014.us> for meeting and other details.

We look forward to seeing you in Asheville for an exciting continuation of this conference series.

With regards,

Dr. T.J. Toops <toopstj@ornl.gov>

Oak Ridge National Laboratory
Conference Chair

Prof. J.J. Spivey <jjspivey@lsu.edu>

Louisiana State University
Scientific Program Chair
